

# BE THE ONE TO

**LEARN** through preparation resources and alternative ways to study such as DECA Plus and the Georgia DECA guide. Also learn through utilizing DECA professional and/or alumni members knowledge and through encouraging others and yourself to learn by giving and receiving feedback.

**EMPOWER** inspire, and uplift your chapter and community by bringing awareness to community service opportunities with the Georgia DECA Community Service campaign. Make a difference by working with local and state programs, like MDA, to serve your community.

**ADVOCATE** through networking, connecting, and getting involved with other local chapters, local businesses, and the Georgia ONE DECA Calls! Be the ONE to make the change in your community through outstanding leadership skills learned in DECA.

**DIRECT** your chapter with notable leadership abilities and set an example for not only your chapter, but people in your community. Go above and beyond when displaying outreach, increase your chapter membership, and encourage completion of the DECA membership campaign.
